COMPOSITION: ECOGUARD™ Daily Cleaner is the combination of a neutral basic cleaner and specially modified organic compounds in aqueous solution.

APPLICATION

TEST AREA: Always test Daily Cleaner on a small area of the surface to be treated before overall application to determine suitability and results.

APPLICATION: Pour ECOGUARD™ Daily Cleaner into your auto scrubber clean water tank, fitted with the ECOGUARD Daily Maintenance Pad.

Dilute 1 oz of Daily Cleaner to 1 Gal. of water for daily cleaning maintenance. For heavy duty grease removal, use up 4-8 oz of Daily Cleaner per gallon of water. On direct oil spills, you may pre-soak with a 1:1 mix to break down and emulsify heavy grease/oil based surface contamination.

To clean using a mop and mop bucket, saturate the mop in the recommended diluted solution, squeeze out excess material and disperse freely. Rinse with clean water once complete. Finish with a high-speed buffing machine to obtain optimal gloss and shine once dry.

COVERAGE: Approximately 1,500-2,000 square feet per gallon (36.8-49.0 square meters / liter).
